

Some of the concerns in the letter are:

- Water Testing in Yukon Public Schools
- Public announcement (PA) and Security Systems in the schools
- Recruitment and Retention of Education Assistants and Teachers on Call

Other information provided by Elaine, was the School Council Resource Guide which has been provided to members. This document is to be revised in early January. And a request was made if there is any input from councils' to let Elaine know. The guide was completed in 2020, and since then a number of developments in education have occurred which include the official end of the Pandemic and the formation of the First Nation School Board. As well, as the Role of the First Nation School Board, School Council Liability and Fundraising.

Any additional items that school council would like to see included in the resource guide, members are asked to submit to AYSCBC by Dec. 20, 2024 at:
