

## **Instructions:**

Dännch'ea dunèna and families! This activity will have you create a Mother's Day Card for the big day on Sunday, May 10<sup>th</sup>.2020. I have attached a card template with dän k'e already written on it. I would like you to be creative and search for little parts of nature - example: pine cones, rocks, various sticks, pussy willows, bark and glue it to fill in ze – the heart.

### **Phrase Inside the Card**

Please write (Gr4 – 7) this dän k'e phrase: **Nk'ets'idli Äma! I love you Mom!**  
And for (K – 3) you can cut and paste.

## **Feedback:**

Please take a picture of your completed Mother's Day Card and upload it to FreshGrade. Please follow the directions to complete the assignment by adding the sentence above. Again, K – 3 students can cut and paste the phrase inside and card and I would like the intermediate students to try their best to write it themselves.

***HAVE A GREAT WEEK! I miss you all very much! Nànûch'i shj!***

*Shäwthän Ämq Dzenü!*

Happy Mother's Day!
